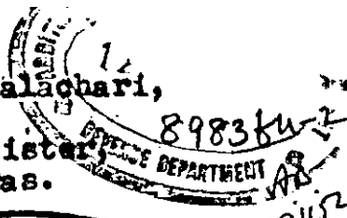
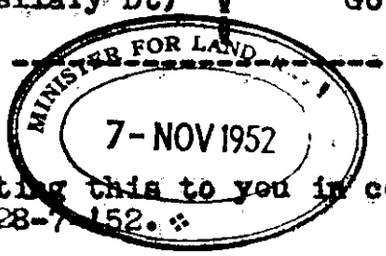
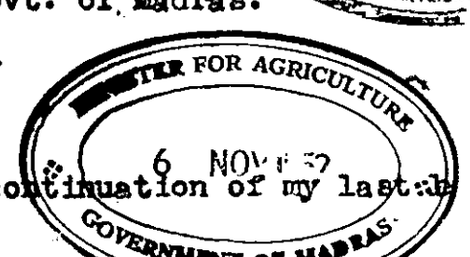
Govt. of Madras.







Sir,

I am writing this to you in continuation of my last letter to you dated 28-7-'52.

It is nearing one year since I started correspondence with your Govt in connection with the official club at Kudligi, Bellary Dt. As nothing in the form of reply has reached me I shall should assume that your Govt all along are keeping quiet. It is Is it not my duty to point out to you such malpractices by the Govt officials? If you are justified in the Tahsildars action let me at least get a reply from you that the Tahsildar's action was right and mine was wrong. When a wrong thing is done by a subordinate official the higher officials naturally support him as and his actions not caring for the person who raises his finger in protest against such corrupt officials. I hope you too as an an experienced ,old and wise gentleman would have experienced such things in your younger days.

The official club is named after Rama Reddy, the then collector, and Krishna,the then R.D.O. Hospet. It is named in combined fashion i.e. "RamaKrisha club".

The club is built in the premisesof the Taluk office compound. The officials did not allow non-officials to enter the club. But my agitation to suggested to them that they should admit non-officialstoo too lest they should come to trouble. The site for the building is not assigned to the club. It appears that they have not taken permission from the concerned authorities.

I don't know what fancied them to build an official club at the cost of the dumb public. If they wanted really to mingle with the public they could have as well gone to the other club (which is almost abandoned with a decent building with the library) What purpose have they served in contructing another club, not really usefulfor the public? It was purely constructed with selfish interest not caring for the public. As you said once , selfish activity can be described as a grave kind of theft.

The club building is in noway way useful to the public. If the officials want to play cards and read the papers let them do so by going to the other club and improve it. As for the building it may be assigned to the local high school hostel which caters to the needs of 100 pupils through public donations. We are struggling hard in these famine conditions to run the hostel. When such is the case what is the good of ef spending public money when it does not serve the public purpose? I request an answer from you at an early date.

Awaiting your reply. Thanking you,

Yours Faithfully,

T Gurusiddaiah

Please see the petition in the C.F.

2. The request in the petition is that the Officials' club building at Kudligi town, in Kudligi taluk, Bellary district may be alienated to the local high school hostel. From the papers in the G.O. Ms. No. 2505 (Confdl) Revenue dt. 8.9.52 it may be seen that the club building was built out of the money realised through a benefit performance and that the petitioner had made unsuccessful attempts to secure the amount to the High School hostel. The club building does not belong to the Govt and it cannot therefore be alienated to the hostel. In the circumstances no action can be taken on the petition. It is for orders whether the petitioner may be informed that his request cannot be complied with and that his petition is therefore rejected. Pages 13-15 N/F of flag L may be perused.

Subject to orders a draft memo is submitted for approval
